### HM-X-AFP I

## HM-MIC-0970-I MICROSCOPE

The HM-MIC-0970-I has become one of the most reliable allies a medical doctor could ever have in the fields of Ophthalmology, Gynecology, Ear-Nose-Throat, and Surgery.

**1 Arm assembly :** Doctor can be to any position through the universal joints.

**2 Torque adjusting handwheel :** When the accessory is added to or removed from the microscope, adjust hanwheel to make the arm balanced at any position.

**3 Arm locking handwheel:** The arm can be moved up and down by loosening the handwheel.

HM-MIC-0970 I has found wide applications in ophthalmology, gynecology, ear-nose-throat, surgery and orthopedics.
